No. ACPC/2011-12/ 235

Date: 02.04.2011

**CIRCULAR:-**

Sub: Setting up of **Cyber Space Centre** at PIs to facilitate students for online admission 2011.

The Admission Committee is under the process of setting up of Help Centers at various colleges across the State facilitating the students for registration and subsequent process of online admission for to first year degree engineering & degree/diploma pharmacy courses for the year 2011-12.

It appears from the past experience of the Committee that number of students and their parents were exploited by the Cyber Cafes by charging huge amount in the name of online admission for registration and subsequent process.

In order to mitigate such exploitations, the Committee was of the opinion that all PIs would set up a **Cyber Space Centre** with a minimum facility of 5 computer systems with internet connectivity. One faculty of the institute has to be appointed as Nodal Officer to look after the Centre and to assist/guide the candidates. Hoarding showing online admission procedure should be displayed at appropriate places. If possible, printing facility may also be provided to the candidates for taking print out of their registration form, provisional allotment letter etc.

All Heads of PIs are requested to set up a **Cyber Space Centre** as stated above right from the date of commencement of online registration and functional during the office hours. All these facilities shall have to be extended to the candidates free of cost.

It is also requested to furnish the name of Nodal officer to the ACPC with contact numbers and email ID.

Yours faithfully,

  
Member Secretary

To  
All PIs for information & necessary action
